·Portfolio:<https://jinavarrete.github.io/JuanIgnacioNavarreteDataAnalyst.github.io/>

I am a Data Engineer with over two years of experience, specialize in AWS Cloud, ETL processes in Python, Spark, and Pentaho. As a Data Analyst, I have extensive experience with SQL databases and BI data architecture. I am also skilled in Data Visualization using Power BI (*Microsoft DA-100*), QuickSight, and Tableau.

SKILLS

- **Data Visualization:** Power BI (Expert) – Tableau (Intermediate) – QuickSight (Expert)
- **DB/DW:** SQL (Advanced) – RedShift (Proficient).
- **Big Data:** Spark (Proficient) – Hadoop (Intermediate)
- **ETL:** Python (Proficient) – Pentaho (Proficient), AWS Glue (Proficient)
- **Cloud:** AWS (Proficient) – GCP (Beginner) – Azure (Beginner).
- **Others:** Dockers (Proficient) - Linux (Intermediate).

EXPERIENCE

2022/03 - PRESENT

BI DEVELOPER, GLOBAL 66

- AWS Data Pipelining: Designed and managed robust data pipelines on AWS for Data Warehouse creation.
- RedShift Expertise: Crafted scalable Data Warehouses in RedShift, ensuring data efficiency and security.
- Reporting Migration: Spearheaded the organization-wide reporting transition from QuickSight to Tableau, enhancing data visualization.
- Automated Regulatory Reporting: Developed automated reports with AWS Lambda and Glue Jobs, supporting business units and ensuring regulatory compliance.
- Daily Reconciliations: Automated daily file processes, streamlining reconciliations.
- Dashboard Development: Built insightful dashboards for business units using QuickSight and Tableau, driving data-informed decisions.
